

Core Transaction 2 – Operations, Dispatch, and Resource Management

This questionnaire is part of our BSIT Capstone Project at **Bestlink College of the Philippines**. The purpose is to gather system requirements for the proposed Crane and Trucking Management System. All responses will be treated confidentially and used solely for academic purposes.

SECTION A

Dispatch Job and Scheduling (Real-Time Activation) Untitled Title

How are customer jobs currently scheduled?

using activity calender generated thru excel calender at onedrive

Who is responsible for scheduling crane and trucking operations?

Operations manager

What information is required before scheduling a job?

- ☒ Customer Name
- ☒ Project Location
- ☒ Date
- ☐ Option 4
- ☒ Equipment Needed
- ☐ Operator Needed
- ☐ Driver Needed
- ☒ Estimated Duration
- ☐ Other:

How do you know whether a crane or truck is available for a new booking?

confirmation and calender schedule
.....

Have you experienced scheduling conflicts or double bookings?

- ☒ frequently
- ☐ sometimes
- ☐ never

If yes, what usually causes these conflicts?

lack of manpower/equipment
.....

How are schedule changes communicated to drivers and operators?

☒ phone call

☒ message

☒ viber

☒ face to face

☐ radio

☐ Other:

What challenges do you experience during dispatch scheduling?

late arrival, broken equipment

SECTION B Assign Driver / Operator and Equipment

How do you assign drivers and crane operators to a job?

per schedule

Who approves the assignment?

operations manager

What factors do you consider before assigning equipment?

- ☒ Equipment Availability
- ☒ Equipment Capacity
- ☒ Operator Availability
- ☒ Driver Availability
- ☒ Location
- ☒ Customer Request
- ☐ Maintenance Status
- ☐ Other: _____

How do you verify that assigned personnel are qualified to operate specific equipment?

Hr records/201 file

What happens if an assigned driver or operator becomes unavailable?

assign rescue, source for different provider

How are assignments communicated to field personnel?

phone call, messenger

What problems do you encounter during personnel assignment?

delays

How do you currently monitor your fleet?

messenger, phone calls

Do you use GPS tracking?

☒ yes

☐ no

How do you know the real-time location of your trucks?

only for service vehicles

How do you monitor completed and ongoing trips?

messenger, app, call

How do you record trip history?

thru activity monitoring form

What fleet management problems do you commonly experience?

Which of the following fleet information would you like to monitor in one system?

- ☒ Current Location
- ☐ Driver
- ☒ Fuel Usage
- ☒ Vehicle Status
- ☒ Trip History
- ☒ Maintenance Schedule
- ☒ Availability
- ☒ Utilization

SECTION D Crane and Equipment Management

How do you monitor crane availability?

thru equipment schedule and deployment

How do you record equipment usage?

yes

How do you know when equipment requires maintenance?

equipment maintenance schedule

Do you maintain maintenance records?

yes

What information do you record for each crane or equipment unit?

- ☒ Plate Number
- ☒ Serial Number
- ☒ Equipment Type
- ☒ Capacity
- ☒ Purchase Date
- ☒ Maintenance History
- ☐ Operator Assigned
- ☒ Current Status
- ☐ Other:

Have you experienced equipment breakdown during operations?

- ☐ frequently
- ☒ sometime
- ☐ never

If yes, what were the common causes?

hydraulic leaks, electrical system issues, worn out parts
.....

What improvements would you like for equipment management?

equipment monitoring system
.....

How do you currently record fuel consumption?

☐ Option 1

Who is responsible for recording fuel usage?

☐ Option 1

How often is fuel consumption monitored?

☐ every trip

☐ daily

☒ weekly

☐ monthly

☐ Option 5

☐ Other:

Do you compare expected fuel consumption with actual fuel usage?

☒ yes

☐ no

Have you experienced fuel-related issues?

- ☒ Excessive Fuel Consumption
- ☐ Missing Fuel Records
- ☐ Fuel Theft
- ☐ None
- ☐ Delayed Reporting

What reports do you currently generate regarding fuel usage?

weekly fuel consumption

What reports do you currently generate regarding fuel usage?

weekly fuel consumption

SECTION F Overall System Requirements

What are the biggest challenges you experience in dispatch and resource management?

availability of loading equipment and operator

Which process takes the most time?

waiting

Which process is still done manually?

☐ Option 1

If a new dispatch management system is implemented, what features are most important to you?

☐ Real-Time Equipment Availability

☐ Real-Time Driver Assignment

☒ GPS Tracking

☒ Dispatch Dashboard

☐ Notifications

☒ Fuel Monitoring

☒ Maintenance Alerts

☐ Mobile Access

☒ Reports

☐ Analytics

☐ Other:

Is there any additional feature you would like this system to include?

equipment location and status

Is there any additional feature you would like this system to include?

equipment location and status
